For this year's contest 70 works from 8 countries entered the competition, including: England, France, The Netherlands, Poland, Republic of South Africa, Slovakia, Italy and Austria. Twenty two FIAP acceptances were awarded.

Diaporama creators follow closely the situation in the world – violence, alienation, emptiness, loneliness, chasing material goods – which is reflected in the topics and atmosphere of presented works.

Among the submitted works there were many of an educational nature – presenting, among other things, various natural, historical and musical information along with some interesting facts.

This year most entries came from Europe.

We would like to congratulate all the authors of awarded works and we wish you all success in working on future multimedia projects.
